PETITION BRIEF UNDER MPEP 323.01(d)

Dear Sir/Madam:

This is a petition brief to expunge incorrect assignments that were filed on July 28, 2010 by Timothy W. Lohse. I am submitting this document as the inventor. The subject properties (U.S. Patent No. 7,603,311 and Application Serial No. 12/576,147) remained unassigned until April 15, 2010.

1. STATUS OF THE ASSIGNMENTS

The following assignments are recorded for U.S. Patent No. 7,603,311 and Continuation Application Serial No. 12/576,147. Assignment 1 is incorrect.

Assignment: 1

Assignment: 2

Reel/Frame: 024662/0677 Recorded: 07/12/2010 Pages: 4

Conveyance: ASSIGNMENT OF ASSIGNORS INTEREST (SEE DOCUMENT FOR DETAILS).

Assignor: YADAV-RANJAN, RANI Exec Dt: 04/15/2010

Attorney Timothy W. Lohse did not provide me an opportunity to review a draft of the assignment prior to its submission to the U.S. Patent and Trademark Office. This assignment (Exhibit 2) contained 12 applications/patents.

Timothy W. Lohse included two properties (U.S. Patent No. 7,603,311 and Application Serial No. 12/576,147) in the assignment which he recorded in U.S. Patent and Trademark Office. Timothy W. Lohse should not have listed U.S. Patent No. 7,603,311 and Application Serial No. 12/576,147. If I have reviewed the document, I would have caught them and removed them.

The document submitted by Timothy W. Lohse providing proof of assignment was incomplete and contained errors. The Intellectual Property Assignment Agreement (Exhibit 2) filed by Timothy W. Lohse did not display Schedule A (Exhibit 3).

On July 28, 2010, Timothy W. Lohse wrongfully, and without privilege, caused to be recorded an incomplete and misleading copy of the Assignment Agreement in the U.S. Patent and Trademark Office. The copy the Assignment Agreement so recorded omitted Schedule A (Exhibit 4) of the Assignment Agreement, but included only Schedule B (Exhibit 3). The copy the Assignment Agreement also shows the name of the company to be "Construction Navigator, Inc" (Exhibit 2), not the purported assignee name of "Navigator Technology, Inc" (Exhibit 2) further highlighting the obvious errors.

The normal corrective procedures outlined in MPEP § 323.01(a) through § 323.01(c) did not provide the petitioner with adequate relief; and the integrity of the assignment records will not be affected by granting the petition.

I cannot adhere to 323.01(a-c) because this is not a typographical error.

The assignment should have been recorded against the 10 other properties not the two (U.S. Patent No. 7,603,311 and Application Serial No. 12/576,147) therefore the integrity of the assignment records will not be affected by granting the petition.

2. PETITIONER'S ARGUMENT

I am the inventor of U.S. Patent No. 7,603,311 (Application Serial No. 09/721,728). I filed this application on Nov 25, 2000 as an independent inventor. After receiving a final rejection on March 30, 2006, I retained attorney Timothy W. Lohse to prosecute my patent application, which ultimately issued as U.S. Patent No. 7,603,311. On October 8, 2009, Continuation Application number 12/576,147 was filed.

Timothy W. Lohse did not have authority to file certain assignments. These two recorded assignments are improper, and therefore should be expunged.

On August 28th, 2006, I granted power of attorney to Timothy W. Lohse, U.S. Patent and Trademark Office Registration No. 35255, to prosecute Application Serial No. 09/721,728 (now U.S. Patent No. 7,603,311) and any continuations. I revoked the power of attorney from Timothy W. Lohse on November 1, 2009 (see Exhibit 1). I filled out the appropriate forms and mailed it to the U.S. Patent and Trademark Office (see Exhibit 1.1). It was my intention that from November 1, 2009 attorney Timothy W. Lohse not take any further action with respect to U.S. Patent 7,603,311 and Application Serial No. 12/576,147 the subject of the Revocation of Power of Attorney (Exhibit 1.1) on those properties supporting that is the revocation of power of attorney (Exhibit 1.1).

I realized that attorney Timothy W. Lohse had filed unauthorized assignments for U.S. Patent No. 7,603,311 and Application Serial No. 12/576,147 with the U.S. Patent and Trademark Office (see Exhibit 2) on July 28, 2010 and therefore I faxed and re-mailed the copy of the Revocation of Power on August 3, 2010. No such revocations of the Power of Attorney were filed with respect to the other 10 patent applications listed in the subject assignment (Exhibit 2). August 18, 2010 the U.S. Patent and Trademark Office communicated to Timothy W. Lohse that his power of attorney had been revoked.

Attorney Timothy W. Lohse did not provide me (inventor) an opportunity to review the Assignment document prior to filing with the U.S. Patent and Trademark Office.

3. Conclusion

In view of the foregoing arguments, the recorded assignments of Patent No. 7,603,311 and Application Serial No. 12/576,147 contained in Reel/Frame 024741/0843 are improper and therefore should be expunged.

No request is being made to expunge the Assignment as it relates to the remaining 10 patent application.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
